b- Read the paragraph below and write your own one about your family and yourself.

To be successful, remember to:

-write short sentences.

-always capitalize the personal pronoun "I", the **proper nouns** and the **beginning of sentences**.

-use full stops (.) to end your sentences.

_My mother is a cashier in a clothes store. She starts work at nine in the morning and finishes at five in the afternoon. Mom worksdays a week and has really little or no time at all time for rest because she also does the housework at weekends. She drives/ takes the public transport to her work. My father, however, is lucky as he is an accountant and can work from home. He doesn't have to commute, so he is saving energy, time and money. My sister/brother wants to be an astronaut, which seems very interesting although I have a different dream job in mind. In fact, I want to be a surgeon when I grow up. To make my dream come true, I must study hard and get excellent marks at school, college and university. It seems a long way to get there, but I'm determined to make it. Saving people lives matters a lot to me.

c- Now, it's your turn.
